Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface of the Eustachian tube. Doan's Catarrh Medicine cures this blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

WILSON'S MILLS

Blizzard Lost Life

A sad tragedy was that of the fierce storm of Saturday the 6th. Five men started from Spaulding camp on the Cupsupic for the Long Pond camp on the Magalloway. They found shelter in DuMar's old camp with no means of making a fire, no food and frost bitten. A lad of sixteen offered to go to Long Pond for help. It was supposed he passed the camp in the blinding snow storm and was found dead in one of the two sled roads nearly in sight of Murray's camp on the Diamond several days after. The men belonged in Canada.

Leon Bennett and Elwyn Storey are putting in ice, also Axel Wilson and Robert Storey.

Mrs. B. N. Storey was a guest of Mrs. Ernest Bennett, recently.

On account of the bad weather and consequent bad roads school has closed. Spring term began March 22.

At Magalloway Plantation the school is having a fortnight's vacation.

Robert Storey went to Errol Friday for a load of sawdust to pack his ice in.

Give Me a Friendly, Natural Hand-shake

an' a friendly natural tobacco. Keep yo' put-on airs an' "sauced-up" tobaccos for the fellow that likes nut sundaes better than home made pie—

So says a friend of ours named Velvet Joe. And he just about hits the nail on the head.

Velvet is made for men who think there's no smoke like real tobacco. If you are that sort of man, listen:

Velvet was born in old Kentucky, where more than one good thing comes from. It was raised as carefully as any other Kentucky thoroughbred. But the real secret of Velvet's friendly qualities is its slow natural ageing in wooden hogsheds. Ageing in the wood never hurt anything—and least of all, tobacco.

And so we say, Velvet is good tobacco—nothing more or less. It runs second to none.

The picture of the pipe on the tin needn't keep you from rolling a jim-dandy cigarette with Velvet.

UPTON.

The Most Striking Event of Upton The Ladies' Aid of the town of Upton have certainly made their meetings very popular and interesting this winter. Owing to the fact that the Ladies' Aid building could not be comfortably heated, the meetings were held at the homes of the members, each member taking their turn entertaining. The first meeting was held December 4 at Mrs. H. W. Whitney's at which a vote was cast to meet every two weeks and on a Thursday during the cold weather. Regardless of the rough weather we are pleased to say that our Aid has never had a holdback, as we have been able to meet every two weeks with the following members: Mrs. H. W. Whitney, Mrs. S. F. Peaslee, Mrs. Carrie Lane, Mrs. Hollis Abbott, Mrs. Rena Lane, Mrs. Aldana Brooks, Mrs. Charles Chase, Mrs. Henry Egan.

While all the previous meetings were considered events never to be forgotten, all the members have concluded that the most striking event occurred at Mrs. Henry Egan's, Thursday, March 11. We met there at 2 o'clock and twenty-six people were present; the oldest being 67 years and the youngest 3. All were especially pleased to see both Mrs. Hollis Abbott and Mrs. Warrington Bartlett, Mrs. Abbott having been ill for three

weeks, not being able to attend the previous meeting and Mrs. Bartlett having been unable to attend any of the previous meetings, perhaps on account of living in a remote village in the hills. Mrs. S. F. Peaslee was ill. Their jokes were missed and the large amount of cake and pie generally consumed by them was reserved to feed several others.

As this was one of our meetings to finish up work, there was not enough to keep so many busy, so things were finished up by part at the circle and games and music was arranged for the rest. Mrs. J. O. Douglass, Helen Abbott, Leona and Winona Fuller entertained with piano solos, followed by singing.

The chief game of the day was cribbage, which was enjoyed by Mrs. Ed. Warren and Henry Egan, partners against Mrs. Charles Hubbard and Mrs. John Angerville, the latter being the winners which resulted in skunking their opponents.

A very enjoyable afternoon was passed followed by a delicious supper. A large table was set for seventeen people, the hostess sitting at the head of the table with eight ladies on each side of her. The supper consisted of baked beans and brown bread, pickles, potato salad, bread and butter, raspberry preserves, five different kinds of cookies, four different kinds of cake, a delicious Washington cream pie and coffee. Everyone ate generously. Mrs. Brooks partook of nearly everything and as Mrs. Rena Lane sat close beside her, she eventually tried to do the same. Being unable to keep up with Mrs. Brooks and still determining to consume as much food as filled her pockets. All concluded that Daisy ate enough to last her until her husband came home, Saturday night. Mrs. Hubbard was sort of placed in a corner and she ate was too enormous to tell. We hoped Aunt Mary would not be sick, but they were afraid as she drank so much coffee.

It was very lucky for Mrs. Enoch Abbott that a team came for her as she partook so generously that it would have been an impossibility for her to walk home. It was considered that if you usually ate as much as she did for her supper it would not take her long to tip the scales with Bill.

All the rest of the ladies ate as much accordingly. No one left the table with an empty stomach as our waitress, Henrietta Egan, kept the dishes well filled. The second table was served with equally as much interest.

Many thanks. All are looking forward to the time when Mrs. Henry Egan will entertain the Ladies' Aid again.

PORTER

James Anderson Black

James Anderson Black died Friday, March 12 at 6 o'clock p. m. at the home of his daughter, Dr. Laura Black Stickney, at Saco of valvular heart trouble, age 71 years, 1 month, 9 days. Mr. Black had been in poor health for some time and about ten days before his death his daughter persuaded him to go to her home where she could more easily watch and care for him. He seemed apparently to be improving in health. The afternoon of his death he had gone out to the barber's near by and on his return he was sitting in a chair waiting for his supper. He had been sitting there but a few minutes when his daughter entered the room and on examination she found life extinct.

The remains were brought to Kezar Falls, where the funeral services were held at the M. E. church, Monday, March 15, at 1 p. m. Rev. Cyril Hughes of Woodfords, officiating. Frank Pendexter, Ashley Weeks, Herbert Ridlon and Chas. Garland were bearers.

Mr. Black was born in Porter, Feb. 2nd, 1849, the son of John Black and Mary Anderson. He attended the public schools of Porter until he was 16 years of age, when he went to Lynn, Mass., to work in a shoe shop. While in Lynn he took a business course in a night school.

At the age of 26 years he returned to Porter, where he married Dora L. Fox, daughter of Stephen P. and Laura J. Fox. After his marriage he went to care for his father and mother on the home farm in Porter, where he lived until his death.

He then purchased a large farm in Moultonboro, N. H., living there for 20 years. Then he returned to the home farm in Porter, which he had kept in his possession, spending the remainder of his days there. While Black lived at Moultonboro he was first selectman for 8 years and after his return to Porter he held the same office in that town. He was a member of the Ossipee Lodge, Knights of Pythias of Kezar Falls.

Mr. Black is survived by three children, one son, Orion J. Black of Porter and two daughters, D. Laura B. Stickney of Saco, and Mrs. F. C. Gove of West Roxbury, Mass., one sister, Mrs. Marcia Palmer of Kezar Falls and three grandchildren.

Mr. and Mrs. Frankie Weeks and two children have moved onto their farm, known as the Colcord farm, for a short time to make maple syrup and sugar. Clifton Lord is also helping them.

Harriet D. Chapman has bought Richard Parker's farm.

One of Chas. Lewis' horses had a narrow escape on Monday, March 15. Mr. Lewis was hauling a load of wood to the Falls. When he was passing the Cole school the horses had to go through a stretch of deep water. One of the horses fell and but for the timely assistance of three other men who happened to be nearby the horse would have surely drowned. As it was at one time it looked doubtful if the four men together could save the horse, but they finally won out.

One morning recently when John Braden entered his barn to attend to his chores he found one of his oxen dead in the stallion. When Mr. Braden left the ox the night before he seemed in good health, so Mr. Braden can't account for his death.

Samuel Wescott has been taking care of James Black's live stock during Mr. Black's sickness and since his death.

Backward Pupils

You are anxious to give your child every advantage at school, but how about his eyes? Perhaps he is going to be handicapped for lack of glasses.

No boy can do well in school who cannot see distinctly. A case of that kind came under our observation last year.

Teacher said he was stupid and dull—he did not do well at his lessons. We examined his eyes and found he couldn't see the writing on the blackboard. Glasses changed everything—soon he was leading his class.

Most backward children have poor eyesight. How about your child?

THE NEXT TO THE LAST SLIDE

It was way back in the late 50's, perhaps in 1877. It had been one of those old fashioned winters when the snows had been very deep, such a one as Maine often sees, and strange to say, they do not object to, as there is so much lumbering and cutting ice that demands lots of snow and cold weather.

It was in the little town of Sweden in Oxford County, once noted for taking the most papers and magazines according to the number of inhabitants of any town in the State, also for furnishing so many soldiers for the Civil War that when the equalization of bounties, she had no money tax to pay for years.

In the little Red Schoolhouse in Dist. No. 7 there was a number of boys, almost men grown, active and smart and, like all boys, wanted something going on, and if the days were not long enough, then the evenings had to respond to their demands for a good time. So on a full moon along in the Spring after there had been one or two slight rains and then followed with a freeze up, so the roads were about as hard and glare as ice, the boys thought it would be a grand evening to have a slide, so the two Pike brothers, Alvin and Gilman (called Al and Gil for short) with George D. Perry and (if my memory serves me right) Elias Bernald and the two Hamlin brothers, Charles and Melville, started out for a grand evening's slide.

The Hamlin boys furnished an old fashioned sleigh and removed the top and that left room for three boys to sit side ways on each side and the old fashioned runners came up only as far as the bottom of the sleigh and wishing to have it run easily, made a long pointed runner, just the kind to suit the boys; for like all boys, they wanted the speed and safety afterwards, so, all things ready, with an old fashioned cow bell that would ring loud enough to be heard for half a mile, they started out.

The first start on the great decline towards the south was past the Jewett, Daniel and Edwin Sanderson places and with shouts and ringing of the old cow bell, brought all to see what was up and to congratulate it was for a good slide.

Excited by the noise and interest shown by the older members of their families, Willie Burns, son of Daniel Sanderson, and Eugene, son of Edwin Sanderson, boys about 7 or 8 years old, started out with their little sleds to join in the great time they saw others were having.

Eugene could not steer his little sled very well, so fell off by the way, but little Billie Burns did better, but arrived at the foot of the hill all unknown to us, for we had gone up the other incline before he appeared. This incline was up the southern part of Winn's Hill so called for Mr. Winn lived on top of this, perhaps one hundred years before. In climbing up this side it was very steep for quite a distance, then came to a slight incline which met the lower incline and around a slight curve brought us to the top or our starting point back.

Turning our sleigh around with its long, pointed runners we all got on. With Al Pike, my brother, M. Hamlin and I on the left-hand side and the others on the right. The minute we started, it seemed as though the Demon of Flight was in that old sleigh. By the time we had rounded the slight curve and had come down to the less steep incline we were going at terrific speed. As I sat behind Al Pike, I remember how his hair, which was rather long, was streaming back at right angles with his face and reminded me of a reed in a steam whistle, it made such a noise, but just at this time we had arrived at the top of our long steep decline. When we all looked, now about two-thirds of this incline, what should we see but little Billie Burns right in the middle of the road with his little sled coming up to be with us. The instant we saw him, we all began to call out at the top of our voices, "Get out of the road, Billie, get out of the road." But to our great surprise and adding to our fright, we found the little fellow was spellbound and instead of getting out of the road, he began to stand still with arms and legs extended apart to hold his balance, began to cry, "Aher-aher-aher."

The boys on the right side put their feet as hard as they dared in the hard snow for fear of breaking their legs, drew the sleigh a little to the right, and the boys on the left drew their feet as near to the runners as they could. We passed little Billie without an inch to spare, as swift as a cannon ball ever went for a German. Arriving at the foot of the hill white with fright, and trembling with excitement, we all concluded one such slide was enough, "But we saved little Billie."

P. S. Little Billie Sanderson is somewhere in the West. All the others have passed to the great beyond.—C. B. Hamlin, Lisbon, Me.

Paint and Varnish

Spring is here and also cleaning and painting comes with it. You will need paint and varnish to make everything look nice and clean. But you must have good paint and varnish to do it.

We sell Bay State Paint for buildings, inside and outside, for barns, outbuildings, roofs, etc. This is a No. 1 grade of Paint made from the best of materials. (Proportions adjusted by experience and scientific adaptation to New England conditions). Bay State Paint will cover about twenty-five percent more than ordinary paint mixed by hand.

Chi-namel Varnishes are the Quality Finish for everything in the home. One test of Chi-namel Finishes upon your floors, woodwork or furniture will confirm their sheer merit, which has earned their enormous sale at home and abroad since their introduction fifteen years ago. They are the easiest for amateur or professional painters to apply, because they are self-leveling, hence leave no laps or brush marks. Chi-namel Varnishes never chip, crack or show white scratches and never show heel marks. Chi-namel is the easiest compound to do graining with on the market.

TWO YEARS IN BED and Rolling Chair

Mrs. Wilson Gave Up Hope, Gains
25 Pounds On Tanlac and Is
Now a Well Woman

"For two years I spent all my time either in the hospital, in bed, or in a rolling chair, and during that time I was given up to die, and I don't guess I would be here now if it hadn't been for Tanlac," said Mrs. E. O. Wilson. Mrs. Wilson is well known in Atlanta, Ga., her husband having been employed by the Constitution for a number of years.

"I was a great sufferer from chronic indigestion," continued Mrs. Wilson, "and don't guess anybody ever had to go through with what I did. I was very weak and nervous, and at times had those dreadful smothering sensations to the point of fainting. I had dreadful headaches, severe pains in my back and over my kidneys and my joints ached all the time. For two years I had to live entirely on boiled milk, toast and soft boiled eggs, and even that didn't digest well, and would sour on my stomach. I didn't know what it was to get a good night's sleep. I took one kind of medicine after another until our house was almost filled with empty bottles, but instead of improving I was getting worse all the time. Finally they took me to the hospital for treatment, and I lay there for five long months, but even that didn't make me well. It was taking nearly every cent of my husband's wages to pay my doctor and drug bills—our drug bill alone amounted to \$14 or \$15 a month, and one doctor bill amounted to \$108.

"It looked like everything had failed to help me, and I had about given up all hope when one day my husband brought a bottle of Tanlac home with him and asked me to take it. He said he had been reading and hearing a lot of good things about it and didn't see any reason why it shouldn't help me. I was confined to my rolling chair when I began taking it.

"Do I look like an invalid now? I certainly don't feel like one, and I have actually gained twenty-five (25) pounds on eleven bottles of Tanlac, and feel as well as I ever did in my life. I can eat anything I want—such things as meat, turnips. Hard-boiled eggs don't hurt me a particle, and I sleep as good as I did when I was a girl in my teens. I can get about as well as anybody and just the other day I walked down town, and I am running around the neighborhood calling on my friends nearly all the time now. I haven't a pain about me. I believe I am the happiest woman in Atlanta, and I think I have a right to be. I think my recovery is almost a miracle, and everybody in our neighborhood thinks the same."

Tanlac is sold in Norway by A. L. Clark Drug Co., and in West Paris by S. T. White.

NORWAY AND VICINITY

Mrs. Walter Stone has been suffering for a week from a carbuncle.

A large crowd attended the dinner at Concert hall Friday, given by the ladies of the Universalist church.

George Stephenson, accompanied by Vivian M. Akers, spent the week end at the Stephenson camp at Wild River.

Mrs. Walter Bailey of South Paris is with her sister, Mrs. Howard Lasselle, assisting with the housework. Mrs. Lasselle and infant son have been under the care of Mrs. Flora Cummings.

The illustrated lecture on Maine by Principal Drew T. Harthorn of Colburn Classical Institute, at Norway Opera House Thursday evening was well attended. One hundred and sixty views presented a fascinating pictorial history of our state in its past and present condition. Its farms, water power, shipping, lumber camps, and quarries were fully illustrated. Educational facilities were given in full, and photographs of prominent men as examples of the Maine College output were shown. Maine's scenic beauties were given prominence with many photographic slides showing our lakes, mountains, forests, sporting camps and large hotels. Principal Harthorn is an interesting speaker, presenting dry facts in an attractive form easily comprehended by the youngest listener.

As Others See Us
A stranger judges this town mainly by its appearance.
If it is clean, sanitary and inviting, he carries the good word afar. But if it is dingy and ill kept, he carries the bad report to even greater distances.
We should have a reputation second to none—superior to many—but we will have only that which we carve out by our own efforts.
Let's all pitch in and make this the cleanest and the brightest and the most progressive year in our history.
Spring is the time to begin.

Members of the All Different Opinion Club took a snow-shoe hike about Norway and South Paris the first of the week. The girls made merry walking through slush and in places where rubber boots were more appropriate than "web feet." In this they all agreed, "The road was a punk place for snowshoes."

John Sanborn is home from the University of Maine and is visiting his parents, Mr. and Mrs. A. L. Sanborn, Beal Street.

Now is the time to dope on the date for ice to leave Lake Fennessewassee and real fishing to begin. Capt. Snodson is getting into the harness and has everything ready to move his fleet when the glorious day arrives.
Spring is here with the annual moving fever abroad in the land. Desirable tenements are in demand but are not found. The housing problem remains in dead lock because of the many observers between seven and eight o'clock Monday evening. Streamers with a greenish tinge shot across the heavens to the southern horizon and produced shapes like plumes, foliage, trees and other objects limited only by the observer's power of imagination.

Mr. and Mrs. Frank Richardson, formerly of Norway, have closed their farm at Monmouth which they have carried on the past year, and are in Auburn. Mrs. Richardson is employed at the Wood, Smith Shoe Co.

The engagement has been announced by Mr. and Mrs. Walter Winn of New York, formerly of Albany, of their daughter, Adelaide Terry, to Marshall H. Winchester, son of Mr. and Mrs. Howard L. Winchester of Lincoln St., Manchester. Miss Winn is a member of the graduating class at Vassar college and Mr. Winchester is a student at the Mass. Institute of Technology. The item is of local interest as Mr. Winchester has spent several summers at Hayden Villa, Lake Fennessewassee and well known in Norway.

Capt. Mel Sampson had spring fever Monday and scoured the neighboring woods for game. Mel returned with two rabbits and the fever gone.
A brass band is being organized with Allie Cota of South Paris, director. Some fifteen players have signed their willingness to rehearse for pleasure and take a chance on profit later.

Carl Schenk, in attempting to make the trip over Pike's hill to the village, found hazardous traveling and his horse went in all over and he was obliged to call for help from the village. The next day Mr. Schenk brought his milk to the village with a hand sled.

Howard Maxim has leased the Hobbs stable, and after necessary changes are made will open a garage and repair shop.

Owen Rich and Charles Seavey have bought the Will Sanborn stand on Beal street and will take possession soon. The Sanborns are packing their household goods preparatory to moving to Lowell, Mass., where their two daughters reside.

Mr. Sanborn plans to remain in Norway during the summer and continue work at the Cummings grain mill.

Charles S. Penley, who suffered a slight shock the past week, went to the Soldiers' Home at Togus, Friday, where he plans to remain for a week.

Mrs. Arthur Hubbard is spending several days at her cottage at Old Orchard.

William H. Stone is out again with the Grand Union Tea Co.'s products.

Mr. Stone has been housed with a bad cold for a number of weeks.

Albion L. Buck spent a few days this week on a business trip to Boston.

At the weekly boxing and wrestling bouts held at Camp Gymnasium, March 17th the wrestling champion of the camp, Pvt. Hammond, of the 13th Infantry, was challenged by a new arrival, Pvt. Carlton Young, who enlisted at Camp Devens, March 14th. He is the son of Mrs. Lillian M. Young of Lowell. E. E. Hammond announced that he would be glad to take on Young. If Young shows the same class as he has locally, a warm bout is in store for the soldiers next week. Both boys will no doubt represent the camp in the Northeastern Department Championship contests to be held in April.

Woman Sick Two Years Tells How She Got Well

Miss G. I. Baird of 20 Glenville Ave., Allston, Mass., writes: "I have been sick almost two years, had four doctors with little or no relief. I was growing thin every day, went from 138 to 111. I was so discouraged, I didn't know what to do. One night, at about three weeks ago, I picked up a paper and saw your Dr. True's Bilex, Family Laxative and Worm Expeller, advertised. I made up my mind I had worms, and the next day bought a small bottle of Dr. True's Bilex. I was surprised at the result, stomach worms came a finger long, so much slime, that looked as though it was just the skin of worms. The day before I took Dr. True's Bilex, I thought I should go wild with the crawling in my stomach. I feel like a new person, all my friends say I look so much better. I wouldn't have believed anyone could feel so much better in such a short time. I can't give your medicine praise enough."

When a man buys a car today the first important step is, to find the right garage in which to store it. He should not only consider the garage from the standpoint of storage, but from the point of view of service which that particular garage is capable of rendering. In the early days of Automobiles, the garage business was an experiment, today it is a study. Many garages have experienced in inferior grades of oils, greases, supplies and repairing and have failed. We study.
